

To All AAFCO members, advisors, and stakeholders:

AOAC is pleased to announce that the SPSFAM Sugars Working Group has completed draft Standard Method Performance Requirements® (SMPRs) for both Sugars in Animal Feed, Pet Food, and Human Food and Fructans in Animal Food. Please review the SMPRs and provide comment here: <https://goo.gl/vS7f7m> or at the links provided below.

The draft Standard Method Performance Requirements (SMPR) for Sugars in Animal Feed, Pet Food, and Human Food is now available for public comment. The link for the public comment information is: https://www.aoac.org/AOAC_Prod_Imis/AOAC_Member/ANews/2018_News/NEWS_011818.aspx.

From that page, please access the draft SMPR and provide comment asap and before February 23.

The draft Standard Method Performance Requirements (SMPR) for Fructans in Animal Food (Animal Feed, Pet Food, and Ingredients) is now available for public comment. The link for the public comments:

https://www.aoac.org/AOAC_Prod_Imis/AOAC_Member/ANews/2018_News/NEWS_012918.aspx

From that page, please access the draft SMPR and provide comment asap and before February 26.

This is an opportunity for input at this step in the process.

Thank you!

Nancy Thiex

AAFCO Laboratory Methods and Services Committee Co-Chair
