

STEP 1: IDENTIFICATION

Name: ← Enter your name here.
 Organization: ← Enter the organization you work for here.
 Affiliation: ← Please insert a 1, 2, 3, or N/A (see the key at right).
 AOAC Member: ← Please enter Y/N to indicate if you are an AOAC member.
 Organizational Affiliate: ← Please enter Y/N to indicate if your employer is an AOAC Organizational Affiliate.
 Sustaining Member: ← Please enter Y/N to indicate if your employer is an AOAC Sustaining Member.

Affiliation Key
Industry = 1
Academia = 2
Regulatory = 3
Not applicable = N/A

STEP 2: RANKING THE AREAS OF NEED

Instructions

- Prioritize the following areas from 1 to 6, with 6 being the highest priority and 1 being the lowest priority.
- Please enter the ranking numbers in the light green shaded area in column C and use each number (1 through 6) only once.

Rank	Area of method need	Explanation
<input type="text"/>	Health and Safety/Adulteration	Public health and/or the environment may be affected by excesses, contaminants, metabolites or by-products
<input type="text"/>	Economics/Fraud	Regulatory, labeling, and guarantee monitoring are needed for legal or economic reasons
<input type="text"/>	Political/Public Perception	Analytes of concern to then public or special interest groups may be needed regardless of scientific needs
<input type="text"/>	New Technology/Updating Methods	Better equipment, reagents, or technique suport methods be updated to allow use of best available methods
<input type="text"/>	Trade	Harmonizing methodology involved in writing contracts, settling trade disputes, or WTO challenges
<input type="text"/>	Availability of a Potential Method	If a proposed method is near validation, has undergone SLV, or other collaborative studies, and is needed

STEP 3: RANKING THE METHOD NEEDS

Instructions

- Prioritize the following methods in each area of method need according to YOUR organization's needs.
- Use the numbers 3 (High Importance), 2 (Medium Importance), & 1 (Low Importance) as your rating system.
- Enter a 0 if the method is of "No Importance" to your organization's needs, do not leave the cell blank.
- Enter your rankings in the light green shaded cells in the table below.
- You may add other methods to the additional tables below. Please rank them also.

Methods Needs as established in 2008 (italicized methods have some work in progress).

Identified Method Needs	Health/Safety/Adulteration	Economics/Fraud	Political	New Technology	Trade	Method Available	SCORE
Ruminant protein							
Virginiamycin							
Pyrrolizidine alkaloids							
Perchlorates							
Ormetoprim/Sulfadimethoxine							
Nicarbazin A & B							
Ractopamine							
Ethopabate							
Vitamin D							
Morantel Tartrate							
Vitamin E							
Roxarsone							
Phosphorus							
Robendine							
Clopidol							
Tiamulin							
Fenbendazole							
Tilmicosin							
Ivermectin							
Levamisole							
Improved amino acid method							
Nitarosone and Arsanilic Acid							
Bambermycin							
Erythromycin							
Spectinomycin							
Hygromycin B							
Dioxins in Feed Matrices							
Penicillin							
Piperazine							
Halofuginone							
Total Glucosamine							
Total Chondroitin Sulfate							
Rapid (ICP) Ca in Phos Feed Ingredients							
Rapid (ICP) K in Potash Feed Ingredients							

Note that the methods which have completed method needs statements are not on the survey and are considered "already in the pipeline".

These are: Amprolium, Carbadox, Pyrantel Tartrate, Fructans, Melengestrol Acetate, Multi-analyte Mycotoxin analysis, Neomycin, Starch, Sugars, Tylosin, Chlorotetracycline (CTC), Vitamins A, D, and E, Bacitracin, Fatty-acids, and Multi-element analysis.

Add additional additives/contaminants methods here.

Identified Method Needs	Health/Safey/Adulteration	Economics/Fraud	Political	New Technology	Trade	Method Available	SCORE

Add additional "nutritional methods" here.

Identified Method Needs	Health/Safey/Adulteration	Economics/Fraud	Political	New Technology	Trade	Method Available	SCORE

STEP 4: SUBMITTING THE SURVEY

If you have any questions or concerns regarding the survey, you may contact:

Aaron Price
 Section Head, Feed & Fertilizer Organic Chemistry
 Canadian Food Inspection Agency
 960 Carling Ave. Bldg. #22, C.E.F.
 Ottawa, ON, Canada, K1A 0C6
 tel: (613) 759-1262 fax: (613) 759-1260
aaron.price@inspection.gc.ca

When finished with this survey, please send it to Aaron Price at the above e-mail address.

Thank you for taking the time to respond!
