4) Discussions:
   a) States Doing GRAS determinations. Bring into OP? -tbd
   b) How do definitions get reflected in pet food company ingredient purchasing specifications -tbd
   c) What does “Feed Grade” mean? -tbd
      1. CVM – The substance is of an appropriate grade and suitable purity and is prepared and handled as an animal food ingredient.

5) Work Group Reports
   a) Form workgroup to make 4 hour presentation in January on how to submit a definition request and other Definition Process topics. (CVM (2), Industry (3), State (2))
   b) Canadian use of the monographs –Kent /Judy Thompson
   c) CVM update on ingredient standards -CVM

6) The following Definition Requests are stale. The submitting firm needs to respond to the indicated investigator by 8/3/15 or the request will be removed without prejudice from investigator consideration. CVM has asked the firm for more information 2 years ago or more, and has not received a response. The firm will need to send a new request package with all information if they want to pursue the listing after 8/3/15.
