

Feed Labeling Committee
2018 AAFCO Mid-Year Meeting
Anaheim, CA

DRAFT AGENDA

Welcome, Introductions & Opening Remarks

- David Dressler, Chair
- Dave Phillips, Vice-Chair

Member Additions/Deletions

Advisor Additions/Deletions

NRC's Nutrient Requirements for Beef Cattle

- Status of expert review panel. Recommendations?

Maximum levels for nutrients with toxicity levels.

- Copper, Molybdenum, Selenium, etc.

Non-Pet Food Labeling Guide

- Finalize the discussion about the name change.
 - Commercial Feed Labeling Guide?
- Meagan Davis to present formatting options and recommend changes to improve the guide's format and use.

Electronic Labeling

- Would it be possible for a feed label to be delivered to the customer electronically?
 - What about if the customer is a different location than the farm? Wouldn't the person feeding the product need to know safety cautions, feeding instructions, etc.?
 - Does this affect VFDs?
- DOT records going electronic.

Non-Medicated Feed Labeling Workshop

- Status of the planning workgroup.

Direct-Fed Microbials

- Labeling requirements for Direct-Fed Microbials
- Expiration Date requirement?

Feed Label Review Software

- Workgroup update.
