

**AAFCO LABORATORY
METHODS AND SERVICE
COMMITTEE MEETING**

JULY 26, 2014

SACRAMENTO, CA

FDA DRAFT GUIDANCE ON NANOTECHNOLOGY

- June 24 2014
- <http://www.fda.gov/ScienceResearch/SpecialTopics/Nanotechnology/default.htm>

QUESTIONS

1. Do state labs strictly use approved official methods to analyze drugs in feeds?
2. What do state labs do with samples that they are not able to perform the requested analysis? (subcontract?)
3. How common is the use of LC-MS, GC-MS, LC-MS/MS analyses of drugs in feeds in state labs?
4. Any projections on how soon, i.e. timeframe in within which a lab desiring to have LC-MS/MS, is going to have it?
