

Feed Labeling Committee Minutes
Mid-Year Meeting
St. Pete Beach, Florida
1/19/2011

- 1.) Blue Bird Medicated Label Review – Dragan Momcilovic FDA/CVM
Presentation available on AAFCO Website
- 2.) Nutritional Indicators Report – Richard Ten Eyck

Richard Ten Eyck made a motion to accept the report. The motion was seconded by Ricky Schroeder. Report accepted.

Discussion on report:

- a.) Bill Thom questioned the acceptance of the term “Land Grant University” as there are three dates that define a Land Grant University School. It was concluded that the phrase encompassed all types of Land Grant Universities.
- b.) Dzanis reviewed the formatting to ensure it was in the final condition to send to the OP.

Richard Ten Eyck moved to send the report to the BOD of directors to forward to the membership for vote in August and placed in the 2012 OP. Scott Ziehr seconded this motion and the motion passed. **ACTION ITEM**

- 3.) Model Language for Goat Feed Language

Richard Ten Eyck presented the work group report and moved for the committee to accept the report. The motion was seconded by Scott Ziehr.

Discussion:

- a.) Some issues with analytical results for Acid Detergent Fiber; should it be required? Schroeder stated that ADF had been a required guarantee for dairy cattle and that in that time no issues had been raised but we will approach the labs about the concern. SEMI ACTION ITEM

Richard Ten Eyck moved to send the model language for goat feeds to the Board of Directors to be then sent to the Model Bill and Legislation Committee. Ricky Schroeder seconded the motion and the motion passed. **ACTION ITEM**

- 4.) Non-Pet Food Labeling Guide Single Ingredient Feeds Section – Schroeder

Schroeder reported the intent of the working group was to develop 3 to 5 labels to place in the guide but there were some complications concerning the Model Regulations and Single Ingredient Feeds.

Discussion:

- a.) States are requiring the purpose statement “For Futher Manufacture of Feed” on single ingredients that are both fed as is to animals and further mixed to make a finished feed. To place this purpose statement on a feed that has these above

mentioned uses would be misleading and uninformative. Currently, state interpretation is varied.

New additions to the working group: Jan Campbell, Karen Suedmyer and Gail DeGreef

- 5.) Review of the purpose statement accepted by the Committee during the December 2010 conference call to be passed on to the Board of Directors. **ACTION ITEM**
- 6.) Feed Labeling Workshop at Mid-Year 2012

A coordinating committee will be established to determine the meeting agenda and other required information for this label training.

COORDINATING COMMITTEE:

Richard Sellers (AFIA)

Randy Gordon (NGFA)

Ricky Schroeder (AAFCO)

Dragan Momcilovic (as volunteered by Sharon Benz)

Meagan Davis (FDA)

Stephanie Adams (Industry)

Richard Ten Eyck (as volunteered by Meagan Davis) (AAFCO)
