

Header: Feed Labeling Committee Report/Minutes
AAFCO Midyear Report
Wednesday, January 14, 2015
1:30 pm – 2:30 pm
Wyndham San Antonio Riverwalk
San Antonio, TX

Committee/Board Recommendations and Association Actions: None

Committee Participants: Dave Phillips, ND
Richard Ten Eyck, OR
Meagan Davis, LA
Scott Ziehr, CO
Mike Davidson, CA
David Dressler, PA
Mika Alewynse, FDA
Steve Gramlich, NE

Advisors:

Ellen B. Slaymaker, NGFA
Jan Campbell, NGFA
Angela Mills, AFIA
David Dzanis ACVN/APPA
Charles Starkey, US Poultry & Egg
James Emerson, US Poultry & Egg
Pat Tovey, PFI

Phone:

Miriam Johnson, NC
Tim Darden, NM
Liz Higgins, NM
Katie Brenner, ID
Jan Jarman, MN
Susan Hays, Wild Bird Feeding Industry

Committee Report:

Committee Activities:

ACTION: Accepting the Swine Nutrition Panel Report
MOTION: “Accept the Swine Nutrition Panel Report as provided” Richard Ten Eyck/**Second:**
Steve Gramlich-- Motion Passed

ACTION: Removing zinc guarantee as a requirement for swine feeds
MOTION: “Forward the revised information to the Model Bill and Regulations Committee”
Richard Ten Eyck/Second: Scott Ziehr — Motion Passed

ACTION: Revisions to Table 1, Chapter 5 – Equine Column

MOTION: “Table the item for 1 week and then ask the workgroup to review Table 1 and provide the required updates” Richard Ten Eyck/**Second:** Megan Davis— Motion Passed

Committee Minutes: Committee Chairs may utilize this section to capture additional details if desired.

1. Welcome & Introduction

Vice Chair – Dave Phillips called meeting to order and conducted meeting.
Thanked everyone for attending and for all their time spent on the committee.

2. Dairy Cattle Nutrition Panel Update

Dave Dzanis indicated the Dairy NRC started its review in September, 2014.
and further elaborated that it may be 2-3 years before being published.
He said we could start looking at it now and beef as well.

Jan Campbell – Commented that we historically review guarantee specie by specie.

Miriam Johnson – Suggested putting dairy on hold and move on to beef review
since the Beef Cattle NRC release is expected to be around March, 2015.

Audience Comment – Richard Sellers (AFIA) Very expensive for industry to
make changes and to give industry time to review. Richard offered to supply list
of experts to potentially serve on beef panel.

Request for a volunteer to head up the Dairy Cattle Nutrition Panel was made. (After
the meeting Alan Harrison KY volunteered to head the panel)

General consensus was to start working on Beef next.

3. Swine Nutrition Panel Update

Presentation of Zinc Changes

Miriam Johnson & Expert panel consisting of academia and industry report
recommended removing Zinc Guarantee.

Richard Ten Eyck – Made a motion to accept panel report.
Steve Gramlich seconded
Motion carried: All in favor to accept report.

Richard Ten Eyck – Made motion to Forward to Model Bill and forward for
publication.

Scott Ziehr – Seconded motion.
Discussion – None
Motion carried: All in favor.

4. Non-Pet Food Labeling Guide Discussion

Meagan Davis (LA) presented that historically this document was last updated in 2010
and she requested the committee to establish a working group to monitor and maintain

the Non-Pet Food Labeling Guide in order to keep it current.

Meagan Davis offered to establish the working group, members of working group to be decided upon in the future by Meagan.

5. Feed Labeling Training Module for Inspectors

Discussion:

Meagan Davis offered that several states offer this training for their inspectors and suggested pulling this information from them to combine into one feed labeling training module and she would like to lead this.

Mike Davidson Indicated he was already working on this with the FDA Outreach and Education Workgroup and labeling would be a part of this. Indicated this would be a duplication of effort.

Consensus was for Feed Labeling to not take this on.

6. Review of Nutrient Guarantees Table and Model Regulations

(Changes to Table 1, Chapter 5) pg. 234 2015 –OP

Richard Ten Eyck spoke to this item and why on agenda.

This portion of update was left out with last update.

Richard Ten Eyck – Motioned to table item for (1) week and ask the workgroup to update Equine for 2016 OP- publication. The workgroup will review this electronically and update.

Meagan Davis seconded

Discussion:

Audience Comment –

Steve Traylor- Suggested to add Revision Date to chart.

Kristi Smedley – Offered that in 2011 NRC updated shrimp and fish, suggested to update at same time updating equine.

Motion Carried – All in favor.

7. Feed Labeling Workshop Coordinating Committee Update

Miriam Johnson: Indicated to get workgroup back together to provide recommendations to the committee.

Jan Campbell – Reminded committee that Medicated Labeling was recommended to be the next item for this workgroup over a year ago.

Richard Ten Eyck – Suggested checking with Education and Training Committee as to what is on the AAFCO schedule, so this workgroup could plan accordingly.

Miriam Johnson – Suggested creating an electronic version of this training for sales purposes.

No Further Discussion.

8. Other Topics

None

Action Item Table:

Responsible	Item	Action	Timing / Status
Dave Phillips/ Miriam Johnson	Swine Nutrition Panel Update Presentation of Zinc Changes	Continue development with committee members and results to be given to full committee when completed	After approval of committee meeting minutes
Meagan Davis	Non-Pet Food Label Design & Format Guide	Will create a workgroup to review the document	By Annual meeting
Miriam Johnson	Nutrient Table Equine Column Update		By Annual Meeting?
Dave Phillips/ Meagan Davis	Feed Labeling Workshop	Will work with Education and Training Committee to determine a potential date in the future to hold the Workshop	COMPLETED: First available date: Midyear 2018
Dave Phillips	NRC Beef Cattle Changes	Follow up to confirm the release of the NRC changes to beef cattle requirements	By Annual Meeting

Appendix: Table 5.1

Table 1. Nutrient Guarantees Required by Species under the AAFCO Model Bill and Regulations¹

Nutrient	Complete and Supplement Feeds ¹

1/ All guarantees in this table are subject to the exemptions in model regulation 3 (a) 4 section XII. Typically, if the feed is not intended or represented to be a principal source of the nutrient then a guarantee is not required, but can be voluntarily provided by the guarantor.

a/ Guarantee required only when nutrient source is added.

b/ Sodium guarantee required only when total sodium exceeds that furnished by the maximum salt guarantee.

- c/ Copper minimum and maximum guarantee for sheep required when added or level exceeds 20 ppm.
- d/ Rabbit feeds require minimum and maximum crude fiber guarantee (range not to exceed 5.0 units).
- e/ Guarantee shall be stated in ppm when less than 10,000 ppm and in percentage when concentration is 10,000 ppm (1%) or greater.
- f/ Minimum and maximum in parts per million (ppm) (if added).
