Michelle Miller, better known as the Farm Babe, is an online influencer, columnist for AGDAILY.com, international keynote speaker, and farmer. She is based in northeast Iowa with her boyfriend where they raise sheep and beef cattle and grow 2,000 acres of corn, soybeans, oats, hay and rye.

She started her social media outreach over five years ago as a way to better bridge the gap between farmers and consumers and has made a name for herself as a dedicated “mythbuster” in food and farming. With over 120,000 followers and an average social media reach of 3 million views monthly, she has been featured in Forbes as one of the most reputable and followed farmers in social media, was recently a guest on Dr. Drew, and has proudly spoken alongside some of the biggest names in food and farming today.
