- FDA Lab, Lenexa, KS June 2019
- AOAC Annual Meeting, Denver, Sept. 7-8, 2019
- New: More to come! 4 x 2-day or some equivalent combination
- If interested in hosting a workshop please contact Nancy
- New: planning to develop a course flyer
- New: considering preparing documentation of outcomes (APHL success stories)

+ New Papers

- Theory of Sampling Applied to Food Safety and Environmental Protection (Ramsey, Thiex and Jing)
- The Effect of Sampling Error on Acceptance Sampling for Food Safety (Ramsey)
 - Presented at the 9th World Conference on Sampling and Blending, May 2019, in Beijing, China and published with the proceedings. Email Nancy for copies.
- Evaluation of the use of Microtracers™ in a Proficiency Testing Program. JAOAC Apr 2019. DOI: 10.5740/jaoac.18-0354.
- A 4th manuscript in the “pike”

+ Pilot Sampling PT Exercise

- Unground feed prepared by weighing each ingredient separately for each PT item
- Ship to volunteer labs
- Labs will select test portions for protein, fat, starch, NPN, Ca, Cu, Zn and vitamin A.
- Ship test portions back to Nancy
- Test portions will be sorted and shipped to volunteer labs to run tests (except protein)
- Data will be summarized and lessons learned presented in January
- If successful, can the pilot be scaled up?
