Association of American Feed Control Officials

Certificate # AP – 2139

Date: **28 FEB 2022**

Scheme: <b>MYCOTOXIN CONTAMINANTS</b>	Round: <b>202261</b>
Month: <b>JANUARY 2022</b>	Matrix: <b>PEA PROTEIN</b>

Dear AAFCO PT Program Participants,

Thank you for your participation in the AAFCO Proficiency Testing Program. The final reports have been reviewed and authorized for release. The included reports are:

- Analyte Proficiency Testing Report
- Method Proficiency Testing Report
- Analyte Summary Report
- Method Performance & Summary Report
- Individual Participant's Methods & Analytes Report Cards

The reports shall not be reproduced except in full, without written approval of the AAFCO PT Program. The data and results reported in this document are the property of the participating laboratories and are confidential.

This PT Round was prepared, shipped, and reported by participants; evaluated by statistical treatment for assigned consensus mean, fit-for-purpose standard deviation (i.e. % RSD Threshold), and grades (z-scores); and reported in accordance with ISO 17043. Any concerns or errors should immediately be communicated to [pt@aafco.org](mailto:pt@aafco.org). A timely investigation will occur in accordance with the AAFCO PTP Quality Management System. You will be advised of the outcome. Errors made by the participant in data entry cannot be changed after the reporting deadline and such errors are not grounds for appeal.

Sincerely,

Brenda Snodgrass  
Program Manager/Committee Chair  
AAFCO Proficiency Testing Program
