run time 180 min version 4

Announcements

- A. Next Meetings: Annual Meeting in-person August 1 & 2, 2023 Industry Topic- Recovered Food Waste
- B. New Investigators Needed:
- Amino Acids
 - Collective Terms – Falina Hutchinson
 - Fermentation Products
 - DFM
 - Special Purpose Products
 - Preservatives
- C. **Stale Ingredients:** The following are being removed from consideration as definition requests. Please submit a new request if still desired.
- D. Parking Lot topics:
- Fish Definition - Justin Hill
 - NANP Subcommittee report –have not met -Ashley Shaw /KC/AI
 - FROM PFC (draft): *Vitamin common names for pet food should be addressed by IDC independent of the PFLM project. Information from the qualitative consumer research should be provided to the IDC. Work of the IDC common vitamin name workgroup should be quantitatively consumer panel tested preferably at the same time as the PFLM changes. **NEED UPDATE, Review***
 - Pursue formal MSBC Definition. **Nothing in motion**
 - Fluorine levels in model bill. Tom Phillips (lab) and Jennifer Kormos (IDC) and FIFM (Ken Bowers) form a workgroup to look at impact of testing and definitions parse out questions for the appropriate committees concerning Flourine vs fluoride.
(975.08 AOAC method for fluorine. There are challenges in the methods in animal food and lab capacity. Do we need to send a methods request to LMC? Should Fluorine (gas) be changed to Fluoride in the feed law? (Stan)
