

## Ingredient Definitions Committee 2024 Midyear Meeting

### Session 1

**1/23/24: 2:15 – 3:45**

Link: (Listen Only)

#### **AGENDA**

1. Committee members/advisors be present 5 minutes before meeting starts- Roll Call

#### **Investigator Recommendations:**

2. Move to OFFICIAL T9.41 Meat and Bone Meal, Stan Cook (5)
3. New OFFICIAL 73.027 Calcium Formate, David Snell (5)
4. New Tentative Definition T71.5 Hemp Seed Meal, Mechanical Extracted, Falina Hutchinson (5)
5. New Tentative Definition T51.18 Deboned Fish Protein, Justin Hill (5)
6. New Tentative Definition T60.117(X) Dried Black Soldier Fly Larvae, for use in feline diets, Erin Bubb (5)
7. Upon membership vote to officially accept new common names: Add Corn Protein Feed and Corn Protein Meal to 22.5 Processed Grain Products, Collective Terms, Falina Hutchinson (5)
8. New Feed Term Placeholder (10)
9. AGRN 61 to Table 101.1- **Phytase enzyme produced by *Pseudomonas fluorescens* strain BD50104 expressing an altered *appA* 6-phytase gene from *Escherichia coli* strain K12**, Nathan Price (5)
10. AGRN 62 to Table 101.1- PENDING
11. AGRN 63 to Table 101.1- PENDING
12. Editorial to Table 101.1 AGRN-**Porcine Oligosaccharide peptide complex** FDA changed the published notice under Intended Use. Recommend that table 101.1 be edited to reflect the new language under Intended Use: "Utility information not evaluated for GRAS, see FDA's letter for more information."

#### **Discussion:**

13. Timeline discussion for deletion of "gluten" names in 2025. (date of sunset)  
**42.25 Grain Sorghum Gluten Feed (Grain Sorghum Protein Feed)**  
**42.35 Grain Sorghum Gluten Meal (Grain Sorghum Protein Meal)**  
**48.135 Corn Gluten Feed (Corn Protein Feed)**  
**48.145 Corn Gluten Meal (Corn Protein Meal)**

**AAFCO**  
Association of American Feed Control Officials

**Presentation:**

14. Use of Feed (10)

Terms, Ali Kashani

**Workgroup Action Needed:**

15. From FLC: Review the caution statement in the definition for Ammonium Chloride. The current language is confusing. If a feed is labeled for a specific species, then that caution statement should read for that species only.
16. From MBRC: consider developing official feed terms for “ash”, “acid insoluble ash”, “air-ashed” and “sulfated ash”. \*\*If such official feed terms are accepted in the OP, **SUIP #4 Ash and nutrient elements are not analytically equivalent** should be deleted.
17. From MBRC: review historical information for evaluation of Spent Bleaching Clay as a possible official feed term or for inclusion under an existing oilseed definition or as a new feed definition. **SUIP #6 Spent Bleaching Clay (SBC)** should be retained in the OP at least until the Ingredient Definition Committee completes its review and makes a recommendation.
18. From MBRC: consider establishing a feed term for “rawhide.” **SUIP #7 Chews, Bones, and Toys for Pets and Specialty Pets** currently states that “rawhide generally refers only to beef, and many of these chews use other types of animal skins or hides.”

**Investigator Training:**

19. Recommendation for a Winter 2024 virtual session(s) (5)
20. Stand up work group-Need a lead, CVM (5)

## Session 2

**1/24/24: 9:00 – 10:00**

Link: (Listen Only)

21. Committee members/advisors be present 5 minutes before meeting starts- Roll Call

**Common Food Index:**

22. List of items will be shared for public feedback in May 2024. Based on feedback, CFI subcommittee will recommend selected CFI additions at the August 2024 IDC meeting.  
(Submission periods for the CFI run September through March for Annual Meeting and April through October for Midyear Meeting)- George Ferguson (5)

**Work Groups update:**

23. Animal Protein WG, Collagen update - Laura Scott (10)
24. Spent Bleaching Clay WG - David Snell (10)
25. Fluorine WG - Jennifer Kormos (5)
26. Dried Insect Ingredients for Reptiles/Wild Birds/Specialty Pets WG – Erin Bubb (10)
27. Tentative Definition Status WG - George Ferguson (5)

**Parking Lot:**

28. Possible new tentative definitions for “Recovered Fruits and Vegetables”, and “Recovered Fruits, Vegetables, Meat, Poultry and Seafood”- David Husner (5)
29. Presentation/Speaker - new research on how ingredients can play a role in reducing emissions from production animals.
30. Feed Terms: Pre, pro and postbiotics - Ali Kashani
31. Change all definition notations referring to the “Check Sample Program”. The description in the AV Table refers to it (historic reference), but otherwise the OP should say the “AAFCO Proficiency Testing Program.”

**Panel Discussion**  
**10:00 – 10:30**  
**Pre, Pro and Postbiotics**
