

May 1, 2024

The current list of food items being considered for inclusion to the Common Food Index consists of [10 items](#). AAFCO's subcommittee of experienced ingredient definition and label reviewers assessed and narrowed this list to the most common and well-known ingredients. AAFCO encourages stakeholders such as veterinarians, animal nutritionists, consumer groups and the general public to review the current list of proposed food items and provide feedback [here](#). All feedback is due by May 31, 2024.

Rice	Brown Rice
Okra	Collard Greens
Konjac	Butternut Squash
Beet Root	Maitake Mushroom
Bell Pepper	King Oyster Mushroom

The CFI is not a naming or quality standard.
